

Dura-Pal

The new standard

Up to 80% lighter
Tough construction
Water-resistant
Washable
100% recyclable
2-ton racking loads
6 kilograms only
12 month warranty

Dura-Pal is a new pallet, which has been developed specifically with re-use and closed loop uses in mind. Hygiene and cleanliness comes standard with Dura-Pals protective membrane sealed to prevent dirt and bacterial build-up.

Dura-Pal is ideal for use in food retail outlets, clean room environments and food preparation areas. It is also widely used in internal factory environments which require a lighter pallet with improved durability.

We guarantee that this would be the only pallet that would survive free fall from 5000 feet!

This revolutionary new pallet design offers customers a range of sizes and colours;

- 1200x1000x150mm
- 1100x1100x150mm
- 1200x800x150mm

Customised sizes are available with MOQ's of 5000 pallets.

The new standard for strength, safety and hygiene

Dura-Pal delivers better strength, safety, better hygiene and better presentation. Dura-pal is capable of withstanding loads of up to 2 tons on racks and only weighs 6 kilograms. Optional added features include unique tracking ID, runners for racking and customer branding.
